

fidelitas. it's just wine.

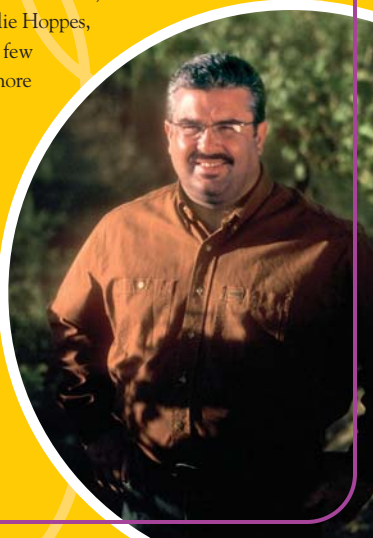

Just wine crafted by one of Washington's most respected winemakers—a guy who knows nearly every vineyard site in the region like the back of his hand. Just wine made from the finest grapes each appellation has to offer—harvested at their peak; crushed, destemmed, sorted, and obsessed over for weeks on end. Tested and tasted, examined and extracted, barrel-aged to perfection—all to ensure the right flavors come to fruition at precisely the right time. Some consider it an optimal blend of art and science. But we all know, it's just wine.

just wine

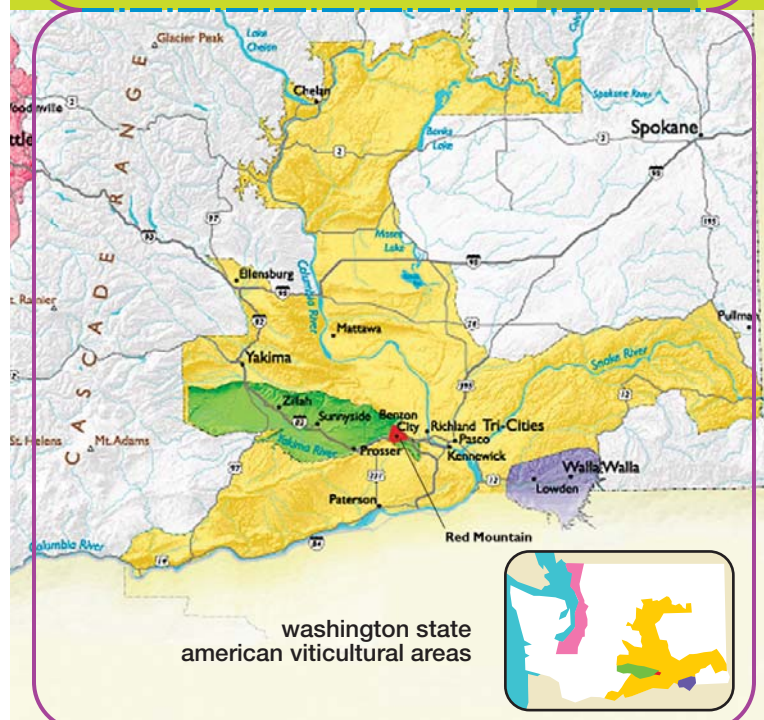

charlie is the real deal.

With over 16 years of experience under his belt, Fidelitas owner and winemaker, Charlie Hoppes, has gained a depth of understanding few others will ever achieve. He's crafted more wines in a single vintage than most winemakers will touch in a lifetime. He knows his growers. He knows their vines. Most important, he knows how to get his hands on exceptional fruit and transform it into something uniquely his own. He's a roll-up-your-sleeves type of guy, fair and authentic—and that authenticity comes through in the wines he crafts. Faithful. Loyal. True. That's Charlie. And that's Fidelitas.

without grapes, we'd be nothing.

There's no doubt—Charlie brings amazing talent to the business and the blending table. But any winemaker will tell you, great wines begin in the vineyard. At Fidelitas, we walk the rows of vines, examining the crops alongside many of the finest growers in Washington. When an exceptional vineyard site appears, growers know to call Charlie. He'll want in on the fruit. He'll pay top dollar for it. And he'll create something truly remarkable with it.

At Fidelitas, it's our privilege to work with some of Washington's most reputable growers, including:

columbia valley
