

2016 QUINTESSENCE VINEYARD CLONE 169

We generally say that our wines are designed in the Vineyard. Before harvest starts, we have a pretty good idea of the finished product, but every once in awhile a wine shines so bright during blending that it changes the whole product line up. That was the case with this one Clone of Cabernet from Quintessence Vineyard. Upon tasting it, Charlie knew he needed to create a special bottling with just the Clone 169. It gives us loads of dark fruit, depth, and exceptional tannic structure. Enjoy now through 2030.
